

**“You know what, HIV?
There are many things I
still want to accomplish
and you are not going to
stop me.”**

L'Orangelis – San Juan, PR

Living with HIV since 1988.

I was born with HIV so I don't know what a life without HIV is like. There was a period of time where I did not take medicine, but I decided to get back on treatment and seek medical care. I am motivated now to stay healthy because there are so many things I still want to accomplish. I have a whole life to look forward to and an opportunity to be a role model for other young people.

Get in care. Stay in care. Live well.
